## Summary Prospectus Investor and Service Class

NOVEMBER 27, 2024

### Falling U.S. Dollar ProFund

<b>CLASS</b>	<b>TICKER</b>	<b>CUSIP</b>
Investor	FDPIX	74318A-190
Service	FDPSX	74318A-182

This Summary Prospectus is designed to provide investors with key fund information in a clear and concise format. Before you invest, you may want to review the Fund's Full Prospectus, which contains more information about the Fund and its risks. The Fund's Full Prospectus, dated November 27, 2024, and Statement of Additional Information, dated November 27, 2024, and as each hereafter may be supplemented or amended, are incorporated by reference into this Summary Prospectus. All of this information may be obtained at no cost either: online at [ProFunds.com/ProFundsinfo](http://ProFunds.com/ProFundsinfo); by calling 888-PRO-3637 (888-776-3637) (financial professionals should call 888-PRO-5717 (888-776-5717)); or by sending an e-mail request to [info@ProFunds.com](mailto:info@ProFunds.com). The Securities and Exchange Commission has not approved or disapproved these securities or passed upon the adequacy of this Summary Prospectus. Any representation to the contrary is a criminal offense.

## Investment Objective

Falling U.S. Dollar ProFund (the “Fund”) seeks daily investment results, before fees and expenses, that correspond to the daily performance of the basket of non-U.S. currencies included in the ICE<sup>®</sup> U.S. Dollar Index<sup>®</sup> (the “Index”). The Index measures the value of the U.S. Dollar against a basket of currencies of the top six trading partners of the United States, as measured in 1973 (the “Benchmark”). These currencies and their weightings as of July 31, 2024 are: euro 57.6%; Japanese yen 13.6%; British pound 11.9%; Canadian dollar 9.1%; Swedish krona 4.2% and Swiss franc 3.6%. The Fund is designed to benefit from a decline in the value of the U.S. Dollar against the value of the currencies included in the Benchmark. Accordingly, as the value of the U.S. Dollar depreciates (i.e., “falls”) versus the Benchmark, the performance of the Fund generally should be expected to increase. As the value of the U.S. Dollar appreciates versus the Benchmark, the performance of the Fund generally should be expected to decline.

## Fees and Expenses of the Fund

The table below describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and examples below.

### Shareholder Fees

(fees paid directly from your investment)

### Wire Fee \$10

### Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

	Investor Class	Service Class
Investment Advisory Fees	0.75%	0.75%
Distribution and Service (12b-1) Fees	0.00%	1.00%
Other Expenses <sup>1</sup>	<u>4.80%</u>	<u>4.80%</u>
<b>Total Annual Fund Operating Expenses Before Fee Waivers and Expense Reimbursements</b>	<b>5.55%</b>	<b>6.55%</b>
Fee Waivers/Reimbursements <sup>2</sup>	<u>-3.77%</u>	<u>-3.77%</u>
<b>Total Annual Fund Operating Expenses After Fee Waivers and Expense Reimbursements</b>	<b><u>1.78%</u></b>	<b><u>2.78%</u></b>

1 The information in the table has been restated to reflect current fees and expenses.

2 ProFund Advisors LLC (“ProFund Advisors”) has agreed to waive fees and to reimburse expenses to the extent Total Annual Fund Operating Expenses Before Fee Waivers and Expense Reimbursements, as a percentage of average daily net assets, exceed 1.78% for Investor Class shares and 2.78% for Service Class shares through November 30, 2025. This agreement may not be terminated before that date without the approval of the Fund’s Board. Amounts waived or reimbursed

in a particular contractual period may be recouped by ProFund Advisors within three years subject to certain limitations.

**Example:** This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other funds.

The example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem or hold all of your shares at the end of each period. The example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same, except that the fee waiver/expense reimbursement is assumed only to pertain to the first year. Although your actual costs may be higher or lower, based on these assumptions your approximate costs would be:

	1Year	3Years	5Years	10Years
Investor Class	\$181	\$1,320	\$2,447	\$5,211
Service Class	\$281	\$1,599	\$2,877	\$5,903

The Fund pays transaction and financing costs associated with the purchase and sale of securities and derivatives. These costs are not reflected in the table or the example above.

## Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when the Fund’s shares are held in a taxable account. These costs, which are not reflected in the Annual Fund Operating Expenses or in the example above, affect the Fund’s performance. During the most recent fiscal year, the Fund’s annual portfolio turnover rate was 0% of the average value of its portfolio. This portfolio turnover rate is calculated without regard to cash instruments or derivatives transactions. If such transactions were included, the Fund’s portfolio turnover rate would be significantly higher.

## Principal Investment Strategies

The Fund invests in financial instruments that ProFund Advisors believes, in combination, should track the performance of the Index.

The Index is designed to measure the value of the U.S. Dollar against a basket of currencies of the top six trading partners of the United States as measured in 1973. The currencies are weighted against the U.S. Dollar as follows: the euro is 57.6%, the Japanese yen is 13.6%, the British pound is 11.9%, the Canadian dollar is 9.1%, the Sweden krona is 4.2%, and the Swiss franc is 3.6%. The Index is constructed and maintained by ICE Data Indices, LLC. More information about the Index can be found using the Bloomberg ticker symbol “DXY.”

Under normal circumstances, the Fund will invest at least 80% of its total assets in components of the Index or in instruments with similar economic characteristics.

The Fund will invest principally in the financial instruments listed below.

- **Derivatives** — Financial instruments whose value is derived from the value of an underlying asset or assets, such as stocks, bonds, ETFs, interest rates or indexes. The Fund invests in derivatives in order to gain exposure to the Index. These derivatives principally include:
  - **Forward Contracts** — Two-party contracts where a purchase or sale of a specific quantity of a commodity, security, foreign currency or other financial instrument is entered into with dealers or financial institutions at a set price, with delivery and settlement at a specified future date. Forward contracts may also be structured for cash settlement, rather than physical delivery.
- **Money Market Instruments** — The Fund expects that any cash balances maintained in connection with its use of derivatives will typically be held in high quality, short-term money market instruments, for example:
  - **U.S. Treasury Bills** — U.S. government securities that have initial maturities of one year or less, and are supported by the full faith and credit of the U.S. government.
  - **Repurchase Agreements** — Contracts in which a seller of securities, usually U.S. government securities or other money market instruments, agrees to buy the securities back at a specified time and price.

ProFund Advisors uses a mathematical approach to investing in which it determines the type, quantity and mix of investment positions that it believes, in combination, the Fund should hold to produce returns consistent with its investment objective. The Fund seeks to remain fully invested at all times in financial instruments that, in combination, provide exposure consistent with the investment objective, without regard to market conditions, trends or direction. The Fund may also invest in or gain exposure to only a representative sample of the securities in the Index or to securities not contained in the Index or in financial instruments, with the intent of obtaining exposure consistent with the investment objective.

Please see “Investment Objectives, Principal Investment Strategies and Related Risks” in the Fund’s Prospectus for additional details.

## Principal Risks

### You could lose money by investing in the Fund.

- **Derivatives Risk** — Investing in derivatives to obtain exposure may be considered aggressive and may expose the Fund to greater risks including counterparty risk and correlation risk. The Fund may lose money if its derivatives do not perform as expected and may even lose money if they do perform as expected. Any costs associated with using derivatives will reduce the Fund’s return.
- **Counterparty Risk** — The Fund may lose money if a counterparty does not meet its contractual obligations.
- **Correlation Risk** — A number of factors may affect the Fund’s ability to achieve a high degree of correlation with the Index. Fees, expenses, transaction costs, among other factors, will adversely impact the Fund’s ability to meet its investment objective. In addition, the Fund’s exposure may not be consistent with the Index. For example, the Fund may not have exposure to all of the securities in the Index, its weighting of securities may be different from that of the Index, and it may invest in instruments not included in the Index.
- **Foreign Currency Risk** — Investments linked to or denominated in foreign currencies are exposed to additional risk factors versus those investments denominated in U.S. dollars and linked to U.S. investments. The value of an investment linked to or denominated in a foreign currency could change significantly as foreign currencies strengthen or weaken relative to the U.S. dollar. Devaluations of a currency by a government or banking authority may also have significant impact on the value of any investments linked to or denominated in that currency. Risks related to foreign currencies also include those related to economic or political developments, market inefficiencies or a higher risk that essential investment information may be incomplete, unavailable, or inaccurate. Foreign currency losses could offset or exceed any potential gains, or add to losses, in the related investments. Currency markets are also generally not as regulated as securities markets.
- **Money Market Instruments Risk** — Adverse economic, political or market events affecting issuers of money market instruments, defaults by counterparties or changes in government regulations may have a negative impact on the performance of the Fund.
- **Market Risk** — The Fund is subject to market risks that will affect the value of its shares, including adverse issuer, political, regulatory, market or economic developments, as well as developments that impact specific economic sectors, industries or segments of the market.
- **Geographic Concentration Risk** — Because the Fund focuses its investments in one or more foreign countries, an investment in the Fund may be more volatile than a more geographically diversified fund. The performance of the Fund will be affected by the political, social and economic conditions in those foreign countries and subject to the related risks.
- **Non-Diversification Risk** — The Fund has the ability to invest a relatively high percentage of its assets in the securities of a small number of issuers or in financial instruments with a single counterparty or a few counterparties. This may increase the Fund’s volatility and increase the risk that the Fund’s performance will decline based on the performance of a single issuer or the credit of a single counterparty.
- **Index Performance Risk** — The Index used by the Fund may underperform other asset classes and may underperform other similar indices. The Index is maintained by a third party provider unaffiliated with the Fund or ProFund Advisors.

There can be no guarantee that the methodology underlying the Index or the daily calculation of the Index will be free from error.

- **Active Investor Risk** —The Fund permits short-term trading of its securities. This may have a negative impact on the Fund’s ability to achieve its investment objective or maintain a consistent level of operating expenses. In certain circumstances, the Fund’s expense ratio may vary from current estimates or the historical ratio disclosed in this Prospectus. In addition, this will increase portfolio turnover and may result in additional costs for the Fund.
- **Early Close/Late Close/Trading Halt Risk** — An exchange or market may close early, close late or issue trading halts on specific securities or financial instruments. In these circumstances, the Fund may be unable to rebalance its portfolio, may be unable to accurately price its investments and/or may incur substantial trading losses.

Please see “Investment Objectives, Principal Investment Strategies and Related Risks” in the Fund’s Prospectus for additional details.

**Investment Results**

The bar chart below shows how the Fund’s investment results for Investor Class shares have varied from year to year, and the table shows how the Fund’s average annual total returns for various periods compare with different broad measures of market performance. Performance for Service Class shares would differ to the extent their fees and expenses differ. This information provides some indication of the risks of investing in the Fund. In addition, the Fund’s performance information reflects applicable fee waivers and/or expense limitations, if any, in effect during the periods presented. Absent such fee waivers/expense limitations, if any, performance would have been lower. Past results (before and after taxes) are not predictive of future results. Updated information on the Fund’s results can be obtained by visiting the Fund’s website ([www.profund.com](http://www.profund.com)).

**Annual Returns as of December 31**

Best Quarter (ended 12/31/2022): 8.14%  
 Worst Quarter (ended 3/31/2015): -8.84%  
 Year-to-Date (ended 9/30/2024): 1.55%

**Average Annual Total Returns**

As of December 31, 2023

	One Year	Five Years	Ten Years	Inception Date
<b>Investor Class Shares</b>				<b>2/17/2005</b>
– Before Taxes	3.12%	-2.62%	-4.20%	
– After Taxes on Distributions	2.08%	-2.82%	-4.30%	
– After Taxes on Distributions and Sale of Shares	1.85%	-2.05%	-3.08%	
<b>Service Class Shares</b>	<b>2.11%</b>	<b>-3.58%</b>	<b>-5.13%</b>	<b>2/17/2005</b>
<b>ICE® U.S. Dollar Index<sup>1</sup></b>	<b>-2.12%</b>	<b>1.06%</b>	<b>2.39%</b>	
<b>S&amp;P 500® Index<sup>2</sup></b>	<b>26.29%</b>	<b>15.69%</b>	<b>12.03%</b>	

- 1 Reflects no deduction for fees, expenses or taxes.
- 2 Reflects no deduction for fees, expenses or taxes. Adjusted to reflect the reinvestment of dividends paid by issuers in the Index.

Average annual total returns are shown on a before- and after-tax basis for Investor Class shares only. After-tax returns for Service Class shares will vary. After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor’s tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold the Fund’s shares through tax-deferred arrangements, such as a retirement account. After-tax returns may exceed the return before taxes due to a tax benefit from realizing a capital loss on a sale of shares.

Annual returns are required to be shown and should not be interpreted as suggesting that the Fund should or should not be held for longer periods of time.

**Management**

The Fund is advised by ProFund Advisors. Alexander Ilyasov, Senior Portfolio Manager, and James Linneman, Portfolio Manager, have jointly and primarily managed the Fund since April 2019 and March 2022, respectively.

**Purchase and Sale of Fund Shares**

The **minimum initial investment** amounts for all classes, which may be waived at the discretion of the Fund, are:

- \$5,000 for accounts that list a financial professional.
- \$15,000 for self-directed accounts.

You may purchase, redeem or exchange Fund shares on any day which the New York Stock Exchange is open for business. Depending on where your account is held, you may redeem your shares by contacting your financial professional or the Fund by mail, telephone, wire transfer or on-line ([www.profund.com](http://www.profund.com)).

### **Tax Information**

The Fund's distributions generally are taxable, and will be taxed as ordinary income, qualified dividend income or capital gains, unless you are investing through a tax-advantaged arrangement, such as a 401(k) plan or an individual retirement account. You may be taxed later upon withdrawal of monies from such tax-advantaged arrangements. The Fund intends to distribute income, if any, and capital gains, if any, at least annually.

### **Payments to Broker-Dealers and Other Financial Intermediaries**

If you purchase Fund shares through a financial intermediary, such as a broker-dealer or investment adviser, the Fund and its

distributor may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other financial intermediary to recommend the Fund over another investment. Ask your financial intermediary or visit your financial intermediary's website for more information.

**Receive investor materials electronically:**

Shareholders may sign up for electronic delivery of investor materials. By doing so, you will receive the information faster and help us reduce the impact on the environment of providing these materials. To enroll in electronic delivery,

1. Go to [www.icsdelivery.com](http://www.icsdelivery.com)
2. Select the first letter of your brokerage firm's name.
3. From the list that follows, select your brokerage firm. If your brokerage firm is not listed, electronic delivery may not be available. Please contact your brokerage firm.
4. Complete the information requested, including the e-mail address where you would like to receive notifications for electronic documents.

Your information will be kept confidential and will not be used for any purpose other than electronic delivery. If you change your mind, you can cancel electronic delivery at any time and revert to physical delivery of your materials. Just go to [www.icsdelivery.com](http://www.icsdelivery.com), perform the first three steps above, and follow the instructions for cancelling electronic delivery. If you have any questions, please contact your brokerage firm.
