How did the Fund perform last year?

UltraDow 30 ProFund (the "Fund") seeks daily investment results, before fees and expenses, that correspond to two times (2x) of the daily performance of the Dow Jones Industrial Average® (the "Index"). The Fund invests in financial instruments that ProFund Advisors believes, in combination, should produce daily returns consistent with the Fund's investment objective. For the year ended July 31, 2024, the Fund had an average daily statistical correlation of over 0.99 to twice that of the daily performance of the Index. For the same period, the Index had a total return of 17.22% and a volatility of 10.03%. The Index performance was driven by factors such as the strong equity environment. However, having an underweight to technology compared to the S&P 500®, muted returns relative to the S&P 500®. Primary factors affecting Fund performance include the total return of the securities and derivatives held by the Fund, the performance of the reference assets to which the derivatives are linked, financing rates paid or earned, expenses, transaction costs, the volatility of the Fund's Index, the impact of compounding, and other miscellaneous factors.

Cumulative performance: August 1, 2014 through July 31, 2024

Total Return Based on \$10,000 Investment

The chart above represents historical performance of a hypothetical investment of \$10,000 in the Fund over the past ten years (or since inception if shorter). Performance data quoted represents past performance and does not guarantee future results. Returns shown are total returns, which assume the reinvestment of dividends and capital gains. The table and graph presented above do not reflect the deduction of taxes a shareholder would pay on Fund distributions or the redemption of fund shares.
