<p>The S&amp;P SmallCap 600<sup>®</sup> Growth Index (Bloomberg symbol: SMLG) is designed to provide a comprehensive measure of small-cap U.S. equity "growth" performance. It is an unmanaged float-adjusted, market capitalization-weighted index comprising stocks representing approximately half the market capitalization of the S&amp;P SmallCap 600 that have been identified as being on the growth end of the growth-value spectrum. It is not possible to invest directly in an index.</p>	<table border="1"> <thead> <tr> <th></th> <th style="text-align: right;">Weights</th> </tr> </thead> <tbody> <tr><td>Mueller Industries Inc.</td><td style="text-align: right;">1.24%</td></tr> <tr><td>ATI Inc.</td><td style="text-align: right;">1.23%</td></tr> <tr><td>The Ensign Group Inc.</td><td style="text-align: right;">1.20%</td></tr> <tr><td>Carpenter Technology Corp.</td><td style="text-align: right;">1.18%</td></tr> <tr><td>Meritage Homes Corp.</td><td style="text-align: right;">1.10%</td></tr> <tr><td>SPX Technologies Inc.</td><td style="text-align: right;">1.09%</td></tr> <tr><td>SPS Commerce Inc.</td><td style="text-align: right;">1.06%</td></tr> <tr><td>Glaukos Corp.</td><td style="text-align: right;">1.06%</td></tr> <tr><td>Badger Meter Inc.</td><td style="text-align: right;">0.95%</td></tr> <tr><td>CSW Industrials Inc.</td><td style="text-align: right;">0.90%</td></tr> </tbody> </table>			Weights	Mueller Industries Inc.	1.24%	ATI Inc.	1.23%	The Ensign Group Inc.	1.20%	Carpenter Technology Corp.	1.18%	Meritage Homes Corp.	1.10%	SPX Technologies Inc.	1.09%	SPS Commerce Inc.	1.06%	Glaukos Corp.	1.06%	Badger Meter Inc.	0.95%	CSW Industrials Inc.	0.90%

Investments in smaller companies typically exhibit higher volatility.

Many ProFunds seek daily investment results that correspond, before fees and expenses, to a multiple (e.g., 2x, -2x) of the daily performance of its underlying benchmark (the "Daily Target"). While these Funds have a daily investment objective, you may hold Fund shares for longer than one day if you believe it is consistent with your goals and risk tolerance. For any holding period other than a day, your return may be higher or lower than the Daily Target. These differences may be significant. Smaller index gains/losses and higher index volatility contribute to returns worse than the Daily Target. Larger index gains/losses and lower index volatility contribute to returns better than the Daily Target. The more extreme these factors are, the more they occur together, and the longer your holding period while these factors apply, the more your return will tend to deviate. Investors should consider periodically monitoring their geared fund investments in light of their goals and risk tolerance.

ProFunds are not suitable for all investors because of the sophisticated techniques the funds employ. Investing involves risk, including the possible loss of principal. ProFunds entail certain risks, including risk associated with the use of derivatives (swap agreements, futures contracts and similar instruments), imperfect benchmark correlation, leverage and market price variance, all of which can increase volatility and decrease performance. For more on correlation, leverage and other risks, please read the prospectus. There is no guarantee any ProFund will achieve its investment objective.

All ProFunds are subject to active investor risk. There are no restrictions on the size and frequency of trades and no transaction fees. The frequent exchanges our policies permit can decrease performance, increase expenses and cause investors to incur tax consequences.

**Carefully consider the investment objectives, risks, charges and expenses of ProFunds before investing. A prospectus or summary prospectus with this and other information may be obtained at [Profunds.com](https://Profunds.com) or by calling 1-888-776-3637. Read them carefully before investing.**
